

Product

We sell our fresh delicious lamb directly to the public and high-end restaurant businesses. Available either as a whole or half a lamb, prepared and vacuum-packed ready for freezing.

You can choose to personalise your order if you wish – having your joints de-boned and rolled, leaving your cutlets together as a delicious rack of lamb, or having the lamb breast rolled and stuffed with our gluten-free stuffing.

The choice is up to you!

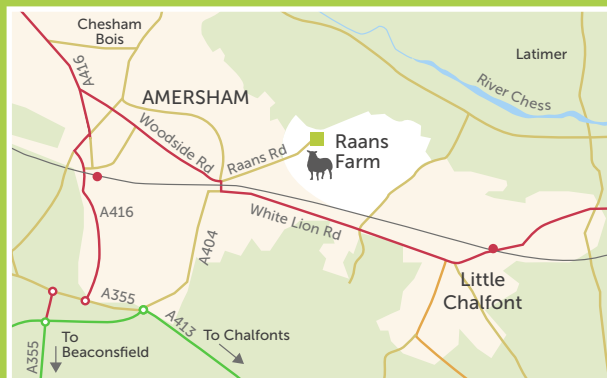

"We want a whole one please. The last half wasn't enough of the best lamb ever."
Tasha and Mike Shaw

How to order

Please contact us or see our Facebook page or website for more information on our lamb boxes and our pricing.

Collection and delivery

Our fresh lamb boxes can be collected from the farm or we can deliver to your door (within a 10-mile radius).

Chess Valley Lamb

Premium quality lamb produced
in the Chess Valley

About Chess Valley Lamb

Chess Valley Lamb™ is part of Chess Valley Livestock, set up by Scott Horton and Paul Jennings in 2012, and moved to Raans Farm in Amersham in 2013. Scott has been farming all his life and Paul has always been interested in agriculture, nature and the great outdoors. Scott's wife, Lynsey, helps to keep them in check.

Scott

Paul

Our 750-strong commercial flock of North Country Mules and 100 Pedigree Charollais are grazed throughout Amersham, Chenies and Latimer. The luscious green grass of the Chess Valley helps to keep our sheep fit and healthy, helping them to produce strong and lively lambs during the spring months.

"We are passionate about our local area, the welfare of our sheep, and providing the best quality lamb."

Scott and Paul, Chess Valley Lamb

Our breeds

North Country Mules

Originally from the Yorkshire Dales, this is a cross between a Bluefaced Leicester and a Swaledale. They are extremely hardy sheep, full of character and energy. We cross these North Country Mules with our Charollais rams to produce a lamb that is strong and active with a sweet, succulent meat.

Charollais

The Charollais breed was first introduced to the UK from France in 1976. Strong and robust, the Charollais breed has a slightly larger body shape than the North Country Mule. This size and strength comes from muscle and not bone structure, making lambing easy and helping the lambs grow quickly. We have a 100-strong Pedigree Charollais flock, all of which are performance recorded by Signet, the national genetic evaluation service for cattle and sheep. We also regularly sell ewe and ram lambs to breeders.

Our top stock ram, *Ocus Pocus*, was noted by Signet to be the fifth top Charollais ram in the country in 2015. Here are just a few of his sons.

The beautiful Chess Valley

The Chess Valley is a historic area within Buckinghamshire, well known for its beautiful landscape rich in wildlife, which follows the River Chess as it meanders through the Chilterns Area of Outstanding Natural Beauty.

Scott and Paul are involved in local Chess Valley projects, Paul is Chairman of the River Chess Association and they both volunteer at Restore Hope, a charity based in Latimer, to help educate children about the River Chess and farming.
